Marta Urrutia

Corporate Promotions Manager, EU-OSHA

Marta Urrutia, graduate in Pedagogy by the University of Deusto in 1988 and certified expert in Occupational Safety and Health (OSH) since 1991, is the Corporate Promotions Manager in the Communication and Promotion Unit at the European Agency for Safety and Health at Work (EU-OSHA) since September 2008, after having worked for EU-OSHA as a project manager for 7 years.

She had previously worked for 9 years as OSH expert at the Spanish National Institute for Safety, Health and Wellbeing at Work.

Coordinator of an editorial and media team, her main focus nowadays is communicating and raising awareness on occupational safety and health, on EU-OSHA's work and on its projects, products and services, not only among the OSH community but also among EU citizens and general public.

For this purpose, the communication and promotion actions undertaken under her coordination use both traditional channels and tools (website, publications, press office) as well as lighter and fresher ones (such as Napo and film screenings and debates).

She also liaises with Spanish and local authorities and stakeholders in the field of OSH and she regularly contributes to newsletter, magazines and media outlets on occupational risk prevention.
